

## Food Donation Point – Corporate Challenge

Help us inspire your colleagues to help individuals facing food insecurity.

The exponential rise in the number of foodbanks in recent years shows there are even more people in need of food donations. Help us to get more good food to people who need it by organising a Food Donation Point at your place of work.

Plan Zheroes will meet with your organisation to present the growing issues around food insecurity and how our charity operates to combat this through the great work that we do.

We will help you to organise a Food Donation Point, including information to share with colleagues to encourage them to bring in store cupboard essentials during an allocated timeframe.

We will match you to a local charity to take any food (and non-food) donations to.

This activity involves a short presentation from Plan Zheroes and the food donations can run over a timeframe convenient to your organisation. This activity will help to promote team building as well as an increased awareness of social and environmental issues within the local community.

Duration: 1 hour

Participants: no limit

Price from: From £500

Location: Presentation to be done at location of your choice. Charity drop-off TBC
